

Registration for BUSSTEPP 2009

Section A

Surname (Mr/Mrs/Ms):

Forenames:

Date of birth:

Nationality:

Section B

Address:

Telephone and email address during June-August 2009:

Section C

Complete this UNLESS you are currently taking Part III Mathematics at Cambridge

Are you registered for a research degree in Theoretical Elementary Particle Physics? YES NO

If "YES", at which university? and for which degree? (e.g. PhD, DPhil)

Section D

Complete this ONLY if you are currently taking Part III Mathematics at Cambridge

Have you applied to do a PhD/DPhil in Theoretical Elementary Particle Physics? YES NO

If "YES", at which universities?

Section E

STFC-funded students and self-supporting students based at UK universities do not need to send a cheque. All other applicants must enclose payment of **GBP 600** with this application. Please make cheques payable to **University of Liverpool** and write your name and "BUSSTEPP 09" on the back.

Please state if you have any special dietary needs

Please state if you have any other special needs

Section F

Please give the general area of your research, or intended research (e.g. strings, cosmology, collider physics).

We may offer students the chance to give a brief talk on their research project. Would you be willing to give such a talk? YES/NO

Section G

Signature of the applicant:

Section H

To be completed by the Head of Department/Group.

I recommend that the applicant whose name appears at the top of this form be accepted as a student at BUSSTEPP 2009. I confirm that (tick or circle one as appropriate):

- The student is STFC funded, or will be in October 2009 if currently taking Part III at Cambridge, or is self-supporting.
- The student is funded, but not by STFC, and payment is enclosed.
- The student is currently taking Part III, but their status for October 2009 is unclear (applications will be incomplete until their status is finalised).

Name and position:

Signature:

This form should be returned together with payment (if applicable) to

BUSSTEPP 2009
Mrs J Settle
Department of Mathematical Sciences
University of Liverpool
Peach Street
