**Only** the university-approved calculator can be used in the exam.

### **Recommended Books**

*Modern Engineering Mathematics*

By Glyn James (2007 edition)

- about £40 from Blackwells or amazon . co . uk (earlier editions much cheaper)
- library copies in 511.1.J31 (10 copies, also some earlier editions).

*Engineering Mathematics*

by K.A. Stroud

*Engineering Mathematics*

by A. Croft, R. Davison and M. Hargreaves, Pearson 2001 (3rd ed).

### **Help**

- Wednesday Problem Class
- End of Lectures
- Office Hours (or other times by mutual arrangement);
- Recommended books

The lectures are for you. Make good use of them:

- ask questions
- tell me if I'm too fast / slow etc
- and please **DON'T TALK** in lectures - except to me.
